

## COLOUR PRODUCTIVITY AT YOUR FINGERTIPS

Productivity depends on providing your staff with business tools that are not just powerful, but accessible too. These multifunctionals present their considerable capabilities to users through touch-screen control panels that are easy for everybody to use and understand. To make document processes faster and more reliable, the control panels can be customised to simplify regular tasks. The integrated HyPAS™ platform brings compatibility with leading software suites, allowing these multifunctionals to work at the heart of your document environment.

- Up to 26 A4 pages per minute in colour and monochrome
- Time to first copy: (10/12) seconds in monochrome (colour)
- Double-sided print, copy, scan and fax\* functionality
- Easy to use
- Colour touch-screen control panel
- Control panel can be personalised for individual users and common tasks
- HyPAS™ platform brings compatibility with leading document management, security, cost control and fleet management software suites
- Confidentiality and security provided by SSL, IPsec and Private Print functions
- Powerful controller architecture: PowerPC 464 @ 800MHz, 1GB RAM, Gigabit Ethernet interface
- Exceptionally low printing costs in its class
- Compact and quiet design

\*Only FS-C2626MFP.

Usability is assured by the touch-screen control panel's easy access to frequently-used functions, programs and address books.

Card authentication controls access to device functions and stored documents without time-consuming login procedures.

## A4 COLOUR MULTIFUNCTIONALS

**ECOSYS** stands for **ECO**logy, **ECON**omy and **SYST**em printing. With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that only the toner has to be replaced regularly. The modular design concept allows you to add workflow enhancing functions as required. Integrated system software provides long term cross-network compatibility. KYOCERA's long-life components cost you and the environment less.

### PRESCRIBE IIc

With PRESCRIBE IIc, KYOCERA's page design and control language, even complex graphics, logos and multipart forms can be created independently on a computer and stored in the printer. They can be recalled from the printer's memory as needed, reducing network congestion.

### The KM NetViewer

KM Net Viewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunctionals from any Windows® PC and thus provides ideal network administration. It also supports other devices using the SNMP protocol.

### Status Monitor and Command Center

The Status Monitor shows a printer's current condition and gives direct access to the web-based Command Centre for the configuration of settings that are not contained in the drivers (e.g. network settings, adjustment of sleep mode and blocking of access to the control panel).

### USB Host Interface for USB Flash Memory

Documents can be printed directly from and scanned to a USB Flash Memory (e.g. USB stick) via the USB host interface. The documents stored as PDF, XPS, TIFF or JPEG are selected directly via the printer's control panel. No computer is required.

### HyPAS™ – Hybrid Platform for Advanced Solutions

KYOCERA's powerful software development platform provides compatibility with leading software suites and enables users to customise the functionality and operations of the multifunctional to their individual requirements.
