BLACK AND WHITE A4  
DESKTOP PRINTER

# TOUGH DESKTOP PRINTERS THAT GO THE EXTRA MILE

High printing  
resolution of up to  
1200 dpi.

USB, network  
connectivity and Wi-Fi  
as standard.

Highly reliable  
thanks to long-life  
components.

Compact design,  
robust and quiet.

They may be compact, but the new ECOSYS P2235dn and P2235dw hide a lot of printing power under their modern exterior. Boasting print speeds of up to 35ppm, duplex functionality as standard and a large paper capacity of up to 850 sheets, these devices really do pack a punch. And as you would expect from a KYOCERA printer, they are extremely reliable, with long-life components and a low Total Cost of Ownership. Not only that, they have remarkable 1200 dpi print resolution, resulting in sharp, detailed printouts, alongside Wi-Fi as standard\* giving users greater flexibility.

\*ECOSYS P2235dw only.

ECOSYS stands for ECOlogy, ECONomy and SYStem-printing. With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that toner is the only consumable. The modular design concept allows you to add workflow enhancing functions as required. Integrated system software provides long-term cross network compatibility. KYOCERA's long-life components cost you and the environment less.

#### Environmental print features

Duplex print mode (Double sided printing), N-Up printing mode (N pages on 1 sheet), Toner save mode (Draft print mode), Quiet mode (reduced print speed).

#### KYOCERA NetViewer

KYOCERA NetViewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunction units from any Windows® PC and thus provides ideal network administration. It also supports the standardised SNMP protocol.
